CAMPING AVENTURERO

The meaning of the word **HATUN**: The word HATUN comes from the Kichwa language and means “**great**”. It is always connected to the great that is **mother nature**, or in our case, to the great that is the Amazon rainforest or the different cultures that are immersed in nature. In the same way the meaning of "large" in the news can also mean "fragile" because of the fact that this great wealth called the Amazonian rainforest is increasingly threatened by pollution, the exploitation of our natural resources, climate change and many other factors.

HATUN PROGRAMS

HATUN offers various adventure camping activities in different locations in the Amazon rainforest.
